

Dual Purpose Corn

PSG 05-26Conv

**105
RM**

Conventional Hybrid

KEY ATTRIBUTES

- This one gets yield and tonnage from a massive ear!
- When conditions are right we see 20 rows around
- Good for silage with high digestible starch content
- Will shine in the best ground and handle the lighter knolls
- Will respond to fungicide application

MATURITY & CHARACTERISTICS

Flowering	Medium
GDU's to Black Layer	2530
Plant Height	Med
Ear Height	Med
Ear Type	Flex
Planting Rate	M
Kernel Rows	18
Silage Potential	9
Herbicide Sensitivity	Ok
RM Zone Placement	West, South

DISEASE TOLERANCE

Goss's Wilt	Excellent
NCLB	Good
Stalk Anthracnose	Average
Tar Spot	Good

GROWING CONDITIONS

Tough Conditions	Good
Variable Conditions	Excellent
Ideal Conditions	Excellent
Planting Population	22 - 36 K
