

Dual Purpose Corn

PSG 79-26Conv

79 RM

Conventional Hybrid

KEY ATTRIBUTES

- Excellent option for late planting or double-crop
- Excellent vigor even in the cold soils to the north!
- Will handle drought conditions on lighter soils
- Will dry down while also maintaining health

MATURITY & CHARACTERISTICS

Flowering	Early
GDU's to Black Layer	1915
Plant Height	Med
Ear Height	Med
Ear Type	Semi-Flex
Planting Rate	Med
Kernel Rows	14-16
Silage Potential	8
Herbicide Sensitivity	Ok
RM Zone Placement	Northern

DISEASE TOLERANCE

Goss's Wilt	Good
NCLB	Good
Stalk Anthracnose	Good
Tar Spot	NA

GROWING CONDITIONS

Tough Conditions	Excellent
Variable Conditions	Excellent
Ideal Conditions	Very Good
Planting Population	22 - 32k
