

Dual Purpose Corn

PSG 95-16Conv

95 RM

Conventional Hybrid

KEY ATTRIBUTES

- Tall and attractive hybrid with deep green color!
- New genetics with very good plant health
- Flowers early to give a silage option to the north
- Holds yield with lower nitrogen applications

MATURITY & CHARACTERISTICS

Flowering	Early
GDU's to Black Layer	2350
Plant Height	Med-Tall
Ear Height	Med
Ear Type	Semi-Flex
Planting Rate	Med-High
Kernel Rows	16
Silage Potential	9
Herbicide Sensitivity	Ok
RM Zone Placement	North

DISEASE TOLERANCE

Goss's Wilt	Excellent
NCLB	Good
Stalk Anthracnose	Good
Tar Spot	Good

GROWING CONDITIONS

Tough Conditions	Good
Variable Conditions	Excellent
Ideal Conditions	Excellent
Planting Population	22 - 36 K
